PREFACE.

We present to our patrons this, the fiftieth number of the Troy City Directory, feeling confident that the labor of collecting and compiling the material which goes to make up its pages has again been faithfully performed in all its parts, and hoping the citizens generally may fully appreciate the same, and bestow upon the enterprise that liberal patronage to which it is so justly entitled.

We fully realize the fact that trade generally has been depressed throughout the country during the past few years; and while our merchants and manufacturers have shared in its effect upon them to some extent, yet they have not suffered equally with the average of those in other places. Very many less failures have occurred among our people during the past year than have taken place in other cities of equal size, and we gather from this one fact a good degree of consolation, for it not only tends strongly to sustain the previously well-earned reputation of our business men, but it gives to each of us confidence in the other, which is so essential to the success and welfare of every business community.

There is no city in the United States which is furnished with a directory containing an amount of information equal to that found in this volume, at a price less than three dollars per copy; yet we found, during our canvass this year, some who think we should furnish a copy of this book for less than two dollars and fifty cents, and as an argument call our attention to the fact of its being furnished twenty-five years ago for one dollar. If such people will just compare the information contained in the Troy Directory of twenty-five years ago with that contained in this issue, they will plainly see that we ought now, if we should be paid proportionally well, have at least four dollars for the work. We have always kept the prices of our publications below that charged by others for similar works, and it is still our aim to continue in this, but it is too much, when we are expected to produce a first-class book and furnish it at a price less than one-half of that charged by others for a Directory every way inferior to it.

Again we wish to remind our patrons of the one great difficulty under which they often labor when hastily glancing at the Directory for information which they do not find. In looking for the name of a person spelled *Carney*, they too often look to find it only with those spelled *Kearney*, and because of it not appearing there, pronounce the Directory at fault. Such names also as *Kenney, Kenny, Kinney, McCanna, McKinney* and *McKenna* are very similar, yet nearly all of them are to be found on different pages of the book. Therefore, in looking for a name with the spelling of which you are not familiar, you should before concluding it has been omitted, not only look at the various ways of spelling a name having the same pronunciation, but also at those which are pronounced and spelled similar to it. If all those who so frequently from such carelessness declare the Directory at fault, will but carefully consider and act upon the above suggestions, they will find very much less wanting in both the Directory and themselves.

Of those whose names appear in the first Troy City Directory, published in 1829, we give below a list of such as have died during the past year, viz: Charles W. Thompson, Myron King (*whose advertisement appears in the first issue as an engraver*), Benjamin Starbuck, Selleck J. Halstead, Ezra S. Howard, William Gilliland and John Disturnell, the latter the compiler and publisher of the first Troy Directory. He was born in Lansingburgh in 1801, and there in 1812 began learning the art of printing; subsequently moving to this city, and establishing a circulating library in connection with a book store at 200 River st. His first effort in the publishing business was to issue JOHNSON'S POCKET DIRECTORY, in the year 1823, after which his list of publications numbered upwards of eighty volumes. Early in 1830 he moved to New York city, and in 1840 he was there established in business at No. 124 Broadway, where he issued the first RAILROAD GUIDE ever published in the United States. At the time of his death he had in preparation a work on the Climate and Diseases of the United States. "The Publishers' Weekly" mention him in their obituary notice as follows: "Pleasant old John Disturnell, one of the walking curiosities of literature, died at the New York hospital on Monday, October 1st, of congestion of the lungs."

A complete set of Troy Directories are kept at our store, which are open to the inspection of all patrons during business hours.

We renew our thanks to the public generally for the readiness with which they have given our canvassers the necessary information, and especially do we thank those who, as advertisers, have given us the needed substantial aid.

CHANGES MADE IN COMPILING THIS EDITION.

Names added in preparing this edition	5,309
Names erased in preparing this edition	5,208
Changes in names, business and locations	8,297
Whole number of changes and additions made in preparing this edition	18,814

Of the 29,198 names that were printed in the three departments of the Directory last year, only 15,693 remain in this issue without some alteration. By comparison, it will be seen that, on an average, about 54 per cent. of the names in the last year's edition remain the same in this, and that about 18½ per cent. of the names in this issue were not in the Directory of last year.

STREET DIRECTORY,

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Basis of the System.—1. The unit of length, the *meter*, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the *are* is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the *liter*, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the *gram*, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use in the United States, Great Britian, Russia, Sweden, Norway, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uraguay. In Sweden compulsory law will take effect in 1889.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hecto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2½ centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or about 10-11 of a meter; 1 mile equals 1609. meters, or about 1 6-10 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3 8-10 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hectoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy or apothecaries ounce equals .03110 kilogram or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; six chapters of Davies' Bourdon's Algebra, and five books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the first, or Winter Session, there is a vacation of one week; and after the Second or Summer Session, there is a vacation of thirteen Weeks.

The Scholastic year of 1878-79 will commence on Thursday, September 12th.

WARD BOUNDARIES.

The city is divided into five wards bounded and described as follows:

FIRST WARD—All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the centre line of Vliet street extended, intersects the boundary line of the city, thence westerly along said line and the centre line of Vliet street to its intersection with the Erie canal, thence southerly along the centre of said canal to the centre line of Cataract alley, extending westerly to the Central railroad, thence westerly along said line to said railroad, thence northerly and westerly along the centre of said railroad to its intersection with the centre of the Boght road, thence westerly along said Boght road to the western boundary line of the city, thence northerly and easterly along the boundary line of the city to the place of beginning, shall comprise the first ward.

SECOND WARD—All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river where the line of Vliet street extended, intersects the boundary line of the city, thence easterly and southerly along said boundary line and the centre of the south branch of said river as it flows easterly of Simmons' island, to a point directly east of the south end of said island; thence in a direct line, to the point of intersection of the centre of Pine street with the centre of the Champlain canal, thence along the southern boundary line of the second ward of the village (now city) of Cohoes, to its intersection with the Erie canal, thence northerly along the centre of said canal to the centre of Vliet street, thence easterly along Vliet street and the line of Vliet street extending to the place of beginning, shall comprise the second ward.

THIRD WARD—All that part of the city comprised within the following lines, to wit: Commencing at a point in the centre of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the centre of said south branch to a point where the centre line of Cedar street extended easterly, intersects the same, thence westerly along said line and thence westerly along said line and the centre line of Cedar street to the centre of Saratoga street, thence in a direct line to the centre line of Columbia street where it intersects the centre line of Mohawk street, thence westerly along the centre line of said street to the centre line of the Erie canal, thence northerly along the centre line of said Erie canal to its intersection with the centre line of Cataract alley, extending in a direct line to the centre line of the New York Central railroad; thence easterly along said line of Cataract alley, and the southerly boundary line of the second ward of said city as hereinbefore defined to the place of beginning, shall comprise the third ward.

FOURTH WARD—All that portion of the city lying south of the southerly line of the third ward and south of the centre line of Columbia street extended, to the western bounds of the city, shall comprise the fourth ward.

FIFTH WARD—All that part of the city included within the following lines, to wit: Commencing at a point where the centre line of the Erie canal intersects the centre line of Columbia street, running thence northerly along the centre line of the Erie canal to a point where it intersects the centre line of Cataract alley extended, in a direct line, to the centre of said canal; thence running westerly, in the direct line of Cataract alley extended, to the centre of the track of the New York Central Railroad; thence northerly along the centre line of said railroad track to the centre of the Boght road; thence running westerly along the centre line of said road, to the westerly bounds of the city, thence running southerly and along the west bounds of the city to the centre line of Columbia street; thence easterly along the centre line of Columbia street to the place of beginning, shall comprise the fifth ward.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gatehouse and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

Troy Fire Alarm Telegraph.

Andrew D. Collins, Supt., office at Arba Read Steamer House, Third cor. State street.

Directions to Key Holders.

Upon seeing a fire in your immediate vicinity, or having positive information of a fire near your signal box, unlock the door, and pull the hook all the way down and let go of the hook; then wait a few moments, and if you hear no ticking in the box or alarm on the bells, go to the next nearest box to the fire. [case of fire.

Never open the box or touch the hook except in

Never pull the hook if the bell in the box is ticking. [the fire.

Never give an alarm except from the box nearest

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent.

The number of the box signaling the fire will be struck upon the gongs of all the engine houses; also upon St. Paul's, St. Peter's, St. Mary's, St. Joseph's and St. Patrick's church bells. For example: To announce an alarm from Signal Box No. 24, the bells will be struck TWICE, and, after a pause of seven seconds, will be struck FOUR times, thus: 2—4.

The number of the box will be repeated at intervals of twenty seconds until a sufficient alarm has been sounded.

KENSETT'S PAT. TROJAN REFRIGERATOR,

Erected as a PERMANENT FIXTURE in Houses, etc.

ADVANTAGES.

1st—The most economical plan. 2d—One-half the quantity of ice saved in comparison with other refrigerators. 3d—the cleanest method. 4th—No zinc or metal lining to decompose or taint provisions. 5th—No rats or vermin can enter and destroy the refrigerator and its contents. 6th—No ceilings carelessly injured by frequent overflow, and rotting timbers of house. 7th—Ventilation provided for.

This refrigerator can be erected on any floor of a house, and, if necessary, might be repeated on the floors below for families, with one conductor and traps for united drainage. It may be erected under the stairs, the same time making them fireproof. VERY MODERATE PRICE, according to size and requirements.

KENSETT'S TROJAN COLD ROOM,

(WITHOUT ICE).

A Fixture for Stores, Hotels, Dairies, etc., in which is maintained a uniform temperature for preserving purposes generally.

N. B.—KENSETT'S PATENT TROJAN PORTABLE REFRIGERATOR in sizes for family use. The best, cleanest and most economical system yet offered to the people.
